3010 Hennepin Avenue #13 – Minneapolis – 55408

1 February 2001

Traffic Committee Report

The traffic committee approved two sets of speed humps on both Humboldt and Irving between 31st St. and 33rd St., two sets between 34th St. and 36th St. on Holmes, and a Left turn green arrow on Hennepin and 36th St. The committee also resolved to support turning E. Calhoun Parkway into a southbound one-way and enhancing the crosswalks at 31st, 32nd and 33rd Sts. To encourage traffic to use Hennepin “No Left Turn 7-9am and 4-6pm” signs at each intersection from James through Holmes on 36th St. were approved. See attached budget for costs.

The next step towards implementation is petition circulation. The neighborhood received the petitions from the city this week, so this step can take place at anytime. Lisa McDonald’s office will circulate a letter to residence of the 3500 block of James through Holmes to inform them of a six month test of the installation of the “no left turn” signs to gauge support. The traffic committee will produce an article for the East Calhoun News describing the new plan. In the event that some residences would like to voice concerns before the installation of the traffic plan the traffic committee will hold a public meeting in late February to mid-March.

The January meeting attendance was exceptional and meeting minutes are available from Erik Hansen (612-823-6065).
